## Dental Benefit Limitations and Exclusions

\*\* Dental Care Benefits will not be payable for construction of an inlay, onlay, crown or fixed bridge unless there is extensive decay or breakdown which cannot be repaired by use of amalgam or similar restorative material.

Dental services in excess of \$500 require pre-authorization by Saskatchewan Blue Cross, in writing in the form of a "Treatment Plan". Dental claim forms are provided for this purpose.

Services for cosmetic purposes or conditions not detrimental to the Participant's health, experimental procedures, replacement of lost or stolen prosthetic devices or charges for missed appointments or completion of claim forms are excluded.

If application for dental benefits (Member or dependent) is made more than 60 days after the date on which the Member and/or dependent first becomes eligible, the maximum benefit will be limited to \$100 per participant during the first 12 months of coverage. This restriction in benefits does not apply to services required as a result of natural teeth being damaged by a direct accidental blow to the mouth which occurs after the effective date of the Late Applicant's coverage.

### General Information

#### Eligible Members

A Member is a person who is an active member of the association of Superannuated Teachers of Saskatchewan. A Member must belong at all times to the class or classes of Members for which the benefit is being offered. All Members must be residents of Canada and be eligible for benefits under the provincial government health care programs in the province of residence in order to be eligible for coverage.

Member applications for coverage are to be completed, signed and submitted within the later of:

- 60 days from the date the Member receives, or is eligible to receive, a pension or survivor allowance,
- 60 days from the date of termination of coverage under a Spouse's group plan or,
- 60 days from the date of termination of coverage under any other group plan.

If applications are submitted after these dates Saskatchewan Blue Cross may request evidence of health at the Members' own expense, for the Member and/or the Member's dependents (if applicable). Any request by Saskatchewan Blue Cross for evidence of health will be in correlation to the specifications in the group contract.

A surviving Spouse of a deceased Member or deceased active teacher may apply for coverage as a new Member. If the surviving Spouse and/or any eligible Dependents were not previously refused Health and/or Dental benefits under the deceased spouse, benefits will commence subject to the satisfaction of eligibility requirements.

In the event of the death of a Member, coverage for the surviving Spouse and/or any eligible Dependents shall be subject to the submission and approval of Evidence of Health if the application is received more than 60 days after the Superannuated Teachers of Saskatchewan is notified of the death.

In the event of the death of an active teacher, coverage for the surviving Spouse and/or any eligible Dependents shall be subject to the submission and approval of Evidence of Health if the application is received more than 60 days after the expiration of the Saskatchewan Teachers' Federation Members' Health Plan or any other group plan.

#### Eligible Dependents

Dependents are defined as the Member's legal spouse and/or children, as described below.

Spouse means the person who is legally married to the Member, or has continuously resided with the Member for not less than one full year having been living in a conjugal relationship. A Spouse shall also mean a person who is in a civil union with the Member as defined by the Civil Code of Quebec. The Member requesting coverage for spouse or a "common-law" spouse must give written notice to Saskatchewan Blue Cross. Unless such written request is made, the person legally married to the Member shall be considered to be the covered spouse. Discontinuance of cohabitation with the Member shall terminate coverage of the "common-law" spouse. At no time will Saskatchewan Blue Cross provide coverage for more than one Spouse.

## General Information

### Eligible Dependents (cont'd)

Children, also referred to as child, means the natural, adopted, or stepchildren of the Member or the Member's Spouse; or any other Children for whom the Member or the Member's Spouse have been appointed as a guardian.

Unmarried children over 21 years of age shall qualify if they are dependent upon the Member by reason of a mental or physical disability and have been continuously disabled prior to their attaining the age of 21. Unmarried Children who became totally disabled while attending an accredited educational institution, college or university on a full-time basis prior to the age of 26 and have been continuously disabled since that time shall also qualify as a dependent. A child is considered to be mentally or physically disabled if he is incapable of engaging in any substantially gainful activity and is dependent on the Member for support, maintenance and care due to this disability. Saskatchewan Blue Cross may require written proof of the Dependent's condition as often as may reasonably be necessary.

- The Member's enrolment form or application for insurance;
- Any written statement or other record, not otherwise part of the application provided to the insurer as evidence of insurability;
- With reasonable notice, a copy of the contract for insured benefits. The first copy will be provided at no cost to the Member. A fee may be charged for subsequent copies. All requests for copies of documents should be directed to Saskatchewan Blue Cross at 1.800.667.6853.

## General Information

### Co-ordination of Benefits

Should similar benefits be provided by more than one section of this plan, any claim for these benefits will be assessed by Saskatchewan Blue Cross in a manner which provides the greatest benefit to the claimant. Moreover, should Member and/or the Member's family may have additional benefit coverage through other plans, following benefit determination by any government health insurance plan or program, the Member may coordinate the remaining eligible expenses in accordance with the Canadian Life and Health Insurance Association's (CLHIA) Coordination of Benefits Guidelines as follows:

- Health, Dental or Vision Care benefits – to be coordinated according to CLHIA Guideline G4.
- Outside Province of Residence Travel benefits – to be coordinated according to CLHIA Guideline G17 as excess to all others.

CLHIA Guidelines are designed to promote consistent practices and standards for the life and health insurance industry and to reinforce the best interests of consumers and the industry. Guidelines are published at [www.clhia.ca](http://www.clhia.ca).

- the Member has been absent from Canada for an extended time period and advises Superannuated Teachers of Saskatchewan within 60 days of returning home.

Should the Member fail to advise Superannuated Teachers of Saskatchewan within the 60-day period specified above, or if coverage has been terminated due to any other reason (including loss of membership in the association of Superannuated Teachers of Saskatchewan), the Member will be required to apply as a new Member and coverage shall be subject to the submission and approval of Evidence of Health. In no circumstances will the Member's reinstated coverage begin retroactive to the Member's previous termination.

The reinstatement of coverage shall be applicable to all benefits for which the Member and/or Dependent was previously permitted. Reinstatement of coverage will be subject to the satisfaction of eligibility requirements.
